DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kraan in view of WO 02/24043 (Patenotre et al.).

There is disclosed in Kraan a coffee-maker comprising: a case for reception of means for supplying hot water; a two part infusion head, including a fixed part 4, 32 and a movable part 34; an elastic restoring means 62A, 62B for maintaining the two parts spaced apart; and a locking device 52 to maintain the two parts in a closed position, the locking device including an operating spring 96, a movable part 76 pivotable around an axis and a projecting part 88 forming an operating button.

Patenotre discloses a locking device operable to maintain two opposed members together, the device including means for adjusting operating parameters of the device and means for controlling (microcontroller) the opening of the locking device at an end of a signal emitted by the adjusting means.

It would have been obvious to one skilled in the art to provide the device of Kraan with the locking device control means and means for adjusting disclosed in Patenotre, in order to allow for automatic operation of the locking device.

Allowable Subject Matter

Claims 1-11 and 13 are allowed.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
